WEALTH INSIGHT #102

Consider the Path to Your Goal

11 November 2026 | Discipline | 3 minutes

THOUGHT FOR THE DAY

Knowing your goal also calls for choosing the path with care.

Aristotle

What does it mean?

Aristotle describes how we seek suitable means for a given end. He distinguishes the intended result from the actions meant to lead towards it.

A savings wish becomes clearer when the amount, timeframe and available means fit together. Reviewing them helps identify a realistic next step.

Put it into practice

01 Name one specific savings goal.

02 Check when you will need the money.

03 Compare the required amount with your available budget.

YOUR TASK FOR TODAY

In no more than five minutes, write down your goal, its date and the information still missing for a realistic plan.

YOUR QUESTION

Is your next step already clear enough?

Idea based on Aristotle | Aristotle, Nicomachean Ethics III.3
