WEALTH INSIGHT #116

Follow Words with Action

25 November 2026 | Reliability | 3 minutes

THOUGHT FOR THE DAY

Choose your words with care, then follow them with determined action.
Confucius

What does it mean?

The Analects attribute to Confucius the wish to be measured in speech and prompt in action. His followers transmitted the collection. Reliability means bringing words and actions into line.

A savings intention begins as an idea. A suitable action gives it substance. Choose a step you understand and can take with the money available to you.

Put it into practice

01 Choose an intention you have expressed about money.

02 Check which specific step is possible now.

03 Set a time to take that step.

YOUR TASK FOR TODAY

Spend five minutes writing down one financial intention, a matching action and a date to carry it out.

YOUR QUESTION

Which commitment would you like to honour through a specific action?
